

# Healthcare Professionals

## Emergency Medical Technician

The EMT-Basic certification is the first of three levels of certification and training available for emergency medical services personnel.

It often is a prerequisite for earning EMT-Intermediate and Paramedic certifications

- January 18 - May 16, 2024
- Thursdays, 5:30pm-9:30pm
- \$800 fee due at registration

## Pharmacy Technician

Pharmacy Technicians must have a broad knowledge of pharmacy practice, and be skilled in the techniques required to order, stock, package, and prepare medications.

- January 18 - April 18, 2024
- Thursdays, 4pm-6:30pm
- \$375 fee due at registration

## Emergency Medical Responder

EMRs have the knowledge and skills necessary to provide immediate lifesaving interventions while awaiting additional EMS resources to arrive.

- Summer 2024 TBD
- \$350 fee due at registration

## Phlebotomy

This course is a non-Nursing course aimed at the technical skills and knowledge required for blood collection. Students will develop skills in performing phlebotomy procedures in various health care settings.

- January 16 - April 11, 2024
- Tues & Thurs, 3:30pm-5:30pm
- \$450 fee due at registration
