customized training

customized training

It is a goal of Danville Area Community College's Customized Training Department to enhance the economic well-being of the community by providing customized training. To assist you in meeting your training goals:

- A DACC Training Coordinator can meet with you to evaluate your unique business challenges and suggest training solutions.
- A training proposal will be presented.
- Using experienced faculty, trainers and customized materials, training can be delivered at the time and location of your choice.

The following are examples of only some of the customized training programs created for clients.

Safety Training

Safety training topics include but are not limited to:

- Accident Investigation
- Arc Flash Analysis and Training
- Behavior Based Safety
- Confined Space Entry and Rescue
