

# Agribusiness

Career Program at Danville Area Community College

This program prepares students for mid-management and sales positions in agri-business such as fertilizer, seed, feed, chemicals, and business related to the product service areas. This program is not designed to transfer to a senior institution; however, this program has been articulated to some senior institutions. Please contact a counselor for specific details.

Workers in agri-business can work in a variety of businesses that produce, process, or distribute agricultural goods. They may do purchasing, producing, or marketing of agricultural products and services. Mid-management work requires that a person have the managerial skills necessary to organize and operate a business. A basic knowledge of accounting and bookkeeping can be helpful in keeping financial records. Most must be familiar with complex safety regulations and requirements of government agricultural support programs. Computer skills are increasingly important.

## Program Specific Courses Include:

- General Chemistry
- Rhetoric
- Business Law
- Ag Mechanization
- Agriculture Economics
