

GENERAL INFORMATION

Classes have been designed by DACC and experts in content areas to enrich children's experiences. The philosophy of the College for Kids program is to provide fresh subject matter for motivating children, in order to extend the range of the children's perception and understanding, as well as their powers of analysis and expression.

All classes are held at DACC-Village Mall location unless otherwise noted.

ELIGIBILITY

Students eligible for classes are those who are entering into 3rd grade or have reached their 8th birthday through those entering into 8th grade or are no older than 14yrs of age. If you have questions about eligibility, please contact Corporate & Community Education prior to registering.

REGISTRATION

All classes are limited on space to allow for the maximum amount of learning and to best serve each student. You can register for classes by phone, fax, or mail. If registering by fax or mail, please fill out the registration form completely including birthday and social security number (it is used for student identification) and return to Community Education Dept/College for Kids.

CANCELLATION POLICY

A SPECIAL NOTE TO PARENTS! Early registration and payment is VERY Important to prevent cancellation of classes due to low enrollment or more importantly - To Prevent Your Child From Being Dropped From a Popular Class and a different child on the waiting list being enrolled in their spot. Classes that do not have a minimum enrollment will be cancelled. Every attempt will be made to notify you as early as possible if cancellation is inevitable.

REFUNDS/DROPPING OF COURSE FEES

You are held liable for classes that you enroll your child in, even if they DO NOT ATTEND!! Fees will be dropped or refunded if you drop prior to the first class meeting. THERE ARE NO EXCEPTIONS!

PROGRAM GOALS

The College for KIDS program is designed to fulfill the following goals:

- Provide hands-on, in-depth exploration in specialized fields of knowledge
- Provide opportunities for children to reach levels of intellectual stimulation which exceed those normally acquired in the regular classroom setting
- Provide challenging experiences and necessary tools to develop the special interests of children
- Promote creativity and broaden interest in the subject areas offered
- Expose children to an atmosphere of learning which will increase the probability that they will direct their energies toward fulfillment of their highest potential
