

DACC Industrial Bridge Program

Designed to prepare students for post secondary learning and career access and advancement.

- Learn competencies needed to succeed in post secondary training and jobs that can lead to career advancement.
- Learn the basics of communication, problem-solving, applied mathematics, technology applications, and technical fundamentals.
- Learn about opportunities and requirements of employment and education in fields of importance to our local economy.

The Introduction to Manufacturing course includes bench operations, routine manufacturing operations, metal cutting operations, safety, quality and inspections, mathematics, decision making and problem solving, engineering drawing and sketches, measurement instruments and plant tours.

For more information on the Industrial Bridge Program call Jonathan Jett, Job Training Partnership at 217-442-3044, ext. 239 or Bruce Rape, Dean of Business & Technology at 217-443-8786.

Visit our website at www.dacc.edu or contact us at 217-443-DACC (3222) for more information.
