Transfer Admission Requirements:

Applications to the BSN program are accepted for Fall admission only. Students applying to the BSN program must meet the following minimum requirements:

1. 2.75/4.00 cumulative transfer grade point average.
2. 2.50/4.00 natural science grade point average.
3. Completion of all pre-nursing coursework with a grade of C or better prior to enrollment. The five natural science courses (human anatomy and physiology I and II, microbiology, general chemistry, organic or biochemistry) must have been completed within seven (7) years of enrollment, and three of the five natural science courses must be completed prior to the application date of January 15.

Students with 3.25/4.00 cumulative transfer grade point average and a 2.80/4.00 natural science grade point average are eligible to apply early admission. Early admission applicants that are not accepted in the early admission round will be considered again in the general round of applications.

In addition, all students will be required to have a background check and drug test upon admission. If the results of either requirement indicate that a student would not be eligible for placement at the College's practicum agencies, the student's admission will be rescinded.

Applications are available in September. The early admission application deadline is October 15, and the final application deadline is January 15. Students should see the program web site for information regarding requirements to apply for early admission: <http://www.uic.edu/nursing/>.
