- IV. ATD DREAM 2018 – February 20-23, 2018 in Nashville, TN
 - a. The ATD Dream 2018 conference will be in Nashville, TN from February 20-23. DACC receives 2 complimentary registrations with our membership. We need to send more members who have been involved to this conference.
Action Items:
-Cindy will send out an email to facilitators of sub-teams to bring up the conference information at their next meeting and provide suggestions on who should attend the conference. Areas of focus are data and equity and tying to accreditation.

- V. Items from the floor
 - a. Dr. Wendy Brown participated in the OER (Open Education Resources) webinar. OER offers so many free resources to our students. In order to encourage more participation in OER, a suggestion was made to have OER as a topic at a future a Teaching Academy.

 - b. Dr. Penny McConnell shared the Institutional Capacity Assessment Tool (ICAT) results from May. A total of 93 completed the assessment. Overall, the scores are pretty consistent and positive across the board. Upon review, there are many “don’t know” responses regarding the teaching & learning, equity, and professional development topics. Work is still needed with communicating DACC

goals and mission with everyone. The *Ticket to Student Success: Changing Student Perceptions with DACC Services* teaching academy was a success. A suggestion was made for the Teaching & Learning committee to hold a reverse faculty academy for student services.
