Company Name: Automation International, Inc.

Posted on: April 30, 2024

Job Title: Controls Systems Engineer

Description:

Electrical Engineer with machine automation design and improvement skills. This is a hands-on design intensive role that will directly contribute to the design and commissioning of our welding machine and equipment lines. This person will be involved in the complete development cycle, from the design as it evolves from a technical specification, to a finished product. Detailed technical collaboration with the full cross functional development team will require strong/ongoing communication. Maintaining our market leading position will challenge your creativity and design skills.

Type: Full Time

Shift: 1st Shift

Days: Monday - Friday

Benefits: We offer a full benefits package which includes: Health, Dental, Vision, Life, Short and Long Term Disability, 401K with match, FLEX spending, 9 paid holidays and vacation accrual along with various AFLAC options.

Responsibilities:

- Ability to design high/low voltage, AC/DC electrical systems
- Support and manage the design, manufacturing, testing, commissioning, and support of a broad range of servomotor, hydraulic, and pneumatic based machines. these designs must address challenging performance objectives while meeting the size, thermal, manufacturability, reliability and cost objectives.
- Validate the design through design reviews, product testing and detailed analysis
- Incorporate support for the manufacturing, commissioning and ongoing maintenance of the product/system.
- Work with vendors and suppliers for component selection and integration into equipment design
- Complete all necessary documentation for manual development, i.e., panel layouts, wiring diagrams, PLC & HMI programs, spare parts lists, and collected vendor literature
- Active communication with the cross functional team to ensure schedule, cost and performance alignment
- Support our team of global field commissioning engineers with technical challenges
- Search for technologies which would improve product performance, reduce development time or reduce cost
- Able to travel within the United States and internationally as needed

Qualifications:

- Bachelor of Science degree in electrical Engineering or equivalent technical experiences required
- Minimum of 1 year experience with electrical schematic design software
- Minimum of 1 year experience with analog & digital circuit designs
- Basic understanding of Ethernet networks for control systems
- Knowledge of communication protocols (e.g. SPI, RS-232, RS-485, CAN)
- Must be familiar with hardware development lifecycle
- Hands on experience debugging PLC & HMI hardware and a variety of sensors, control valves, and servo-drives
- Strong proficiency with AutoCAD, Microsoft Office, and PLC & HMI programming using Allen Bradley, Siemens
- Well-developed written and verbal communication skills
- Skilled in writing specifications and end-user documentation
- Must be a Team Player, always willing to help out and take the initiative to get things done
- Ability to work independently and successfully to represent the Company

Degree Requirements: Bachelor's Degree

The purpose of the Operating Engineers apprentice training program is to ensure a continuous supply of skilled craftsmen coming into the trade. Apprentices are carefully selected and provided with training that will ensure they will be equipped with superior skills and the latest technology. Upon completion of their training, they will be an asset to the employer as well as the community, to the end that the public will receive the best possible workmanship.

Some of the classes offered are Forklift, Global Positioning System, Basic Mechanic, Milling Machine, Oiler, Laser/Automatic Controls, Grade Stakes, OSHA, CPR/First Aid, Hazmat, Crane, Backhoe, MSHA, Directional Boring Machine, Graders, Dozers, and others.

The program offers the latest technological and safety training to the Apprentices as well as to the Journeyman Operating Engineers.

Local 841 believes that comprehensive, uniform training for the members will provide a work force that is both productive and safe, and is beneficial to the public, the contractor and the members. The training is based on the premises that the work of the Operating Engineer should be done by qualified Journeymen assisted by indentured Apprentices.

What Is An Apprentice?

Apprenticeship is an excellent way to learn a craft and to earn an income at the same time. The system is designed to give someone who knows little or nothing about the trade the knowledge to become a master.

thyssenkrupp

**Exploring new paths.
Broadening horizons.
Breaking down boundaries.**

- Public Service Student Loan Forgiveness
- Reflective, Supportive Supervision

Scan the QR code to register, visit www.childrenshomeandaid.org/careers, or email join_our_team@childrenshomeandaid.org.

Watchfire Signs is a local company located in Danville, IL. We have a 91 year history and are a respected manufacturer in the sign and digital billboard industries. Watchfire offers comprehensive benefits including 401K with matching, affordable health/dental insurance, paid time off in year of hire, continuing education assistance and career advancement opportunities. We have been an employer of choice for decades, and have experienced incredible growth.

We are excited to once again offer our summer internship program. This program is a hands-on, real-world position, assisting our Software Engineers with coding, building, and testing various applications and products. You'll not only operate and learn how our systems work, you'll also build practical knowledge and participate in company operations in a day-to-day environment.

For qualifications and to apply, please visit us at:

www.watchfiresigns.com/watchfire-careers/

We look forward to working with you!

*Watchfire is an Equal Opportunity Employer. All aspects of employment including the decision to hire, promote, discipline, or discharge, will be based on merit, competence, performance, and business needs.

*Legal authorization to work in the US required. We will not consider candidates who need sponsorship, now or in the future, to be legally employed in the US. No H1B, OPT, CPT or other "temporary work authorization" candidates will be considered.

For questions regarding applying or screening please email: doc.idocjobs@illinois.gov

You will receive a date to screen/test in approx. 1-3 months via email.

The Illinois Department of Corrections is a multicultural agency deeply committed to ensuring diversity, equity, and inclusion. This commitment is at the forefront of our operations, hiring, policies and procedures, and training. We recognize the benefit of workplace empowerment, the importance of diversity and fully support an environment where ALL employees are treated fairly, respectfully, and have equal access to opportunities and resources necessary to thrive and contribute to the agency's success. IDOC genuinely values the differences of individuals in our custody and is committed to ensuring a healthy living environment where they feel valued, respected, and included.

Through our commitment to Diversity, Equity, and Inclusion (DEI), we shall establish and uphold agency policies and practices conducive to eliminating all forms of exclusion including, but not limited to, racism, ageism, ableism, sexism, discrimination based on sexual orientation, gender and gender identity, and religious oppression.

The Illinois Department of Corrections is proud to be an Equal Opportunity Employer.

ILLINOIS DEPARTMENT OF CORRECTIONS

Screening Process

Applicants must meet minimum standards on each examination to be eligible for hire. Applicants can earn up to a total of 130 screening points and are placed on eligibility lists in rank order. Institutions hire applicants based on scores.

1. Test of Adult Basic Education (TABE)-The Department of Corrections requires that all applicants for security positions successfully complete a written reading comprehension and vocabulary examination. Applicants meeting this criterion can move on to the next phase in the screening process. The TABE is used to establish a baseline for reading comprehension. This test is waived if the applicant has 15 or more college credits and brings transcripts the day of the testing.
2. Observation Examination (0-20 points)-To assess each applicant's capacity to comprehensively, fairly, and objectively evaluate a scenario and provide a detailed incident report. Applicants will be given a scenario write-up. Each applicant will be given 3 minutes to review the scenario and will be allowed to take notes. An applicant will then have 5 minutes to complete an incident report.
3. Structured Oral Rutan Interview and Writing Sample (0-100 points)-Applicants are interviewed by a team of two screeners using a standardized Rutan interview questionnaire.
4. Military Service (0-10)
5. Physical Agility Test - Since being in good physical shape is a prime consideration for being a Correctional Officer Trainee, applicants are required to successfully complete a physical agility test to be eligible for hire. The test includes four exercises designed to measure an applicant's ability to perform the job duties required of a Correctional Officer Trainee. Applicants must complete all four of the exercises to continue in the screening process. Test consists of: Hand Grip, Push-ups, Obstacle Course and stair steps.

Helpful Tips on Testing with IDOC

1. Fill out all attached forms completely and obtain all documents required before the screening. This information can be found on our website and on your email invite to the screening.
2. Make sure you do not have any employment GAPS on your CMS100. Start with high school graduation date or 18th birthday and cover all time until current date. Times of unemployment should be documented on its own with a brief explanation (unemployed, stay at home parent etc.)
3. Male applicants 26 and younger MUST have their selective service number on the date of the screening.
4. Discharged Veterans need a certified copy of DD214/NG22. Still active members need a certified letter of good standing.
5. There are practice versions online for the TABE exam, they are not IDOC tests but are similar 12th grade level, multiple choice questions that can assist in preparing for the exam. (google practice TABE exam)
6. During the Observation and Writing Sample portion you will be graded for grammar, punctuation, organization and including all specifics of the scenario.
7. RUTAN Interview: You will be given a point value for each question answered. It's important to answer all the parts of each question. The screeners can repeat the questions, they cannot elaborate, explain or provide feedback. They will be writing down your answers as you answer them.
 - a. Reviewing the job description beforehand, noting the demands of the position will better prepare you for describing your qualified abilities.
 - b. Use the information from your CMS100 to be sure you are giving full descriptions of your experience, education and/or training for each question asked. The more you can say/relate to the question being asked, the better.
 - c. Use the scrap paper to write the question down to remember to answer all the parts.

An Experience Beyond Belief

HSHS Scholars

The HSHS Scholars program offers funding for nursing students with educational expenses with a maximum of \$20,000. This funding is awarded to qualifying students attending an accredited nursing program.

Applicants should have an interest in working for an HSHS Illinois hospital upon graduation and passing boards.

For more information, [click here](#) or scan the code.

HSHS invests in its nurses with a comprehensive benefits program, competitive salaries and career development opportunities. We also care about achieving work/life balance and believe our colleagues need personal and family time to be well-rounded individuals who can best serve our patients.

Micah T.

HSHS Scholars program recipient

"Applying for the HSHS scholarship was the best thing I could have done for myself and my career path, and something I'd do time and time again. While nursing school is stressful enough in itself, I found peace in knowing I had financial help along the way, as well as already having lined up where I'd be working upon graduation."

904 Brenkman Drive, Pekin, Illinois 61554

NOTICE APPRENTICESHIPS (CARPENTERS, MILLWRIGHT, FLOORCOVERING)

Mid-Central Illinois Regional Council of Carpenters Joint Apprenticeship and Training Committee will be taking applications for apprenticeship throughout the entire year. Applications are available at 904 Brenkman Drive, Pekin, IL Monday through Friday 9:00 a.m. to 11:30 a.m. and 12:30 p.m. to 3:00 p.m. (except holidays).

Basic requirements are:

1. Must be 17 years old (birth certificate required).
2. High School graduate or equivalent (official transcript required).
3. Must be physically able to perform the work of the trade.
4. Must live in Mid-Central Illinois Regional Council of Carpenter's jurisdiction.
5. Drug testing is required upon entry.
6. Must possess a valid driver's license (copy required).

The Joint Apprenticeship Committee will operate the program as required under Title 29 of the Code of Federal Regulations, Part 30. Women and minorities are strongly encouraged to apply. We are an equal opportunity employer.

Local 669 Sprinkler Fitters Apprenticeship Opportunities

TO: State of Illinois Outreach Organizations
DATE: August 2019

The Local 669 Joint Apprenticeship and Training Committee (JATC) conducts a five year apprenticeship program in all or part of 48 states in the U.S. for Sprinkler Fitters who are piping mechanics specializing in Fire Protection. We are very interested in your help to recruit qualified applicants. We also have excellent insurance, pension and education plans. The apprentice's entry-level rate is based on a percentage of the Journeyman rate of \$44.26 per hour and may increase every six months if qualified. Previous experience in construction or related college or military experience may enhance the entry-level wage.

The minimum qualifications for entry into the Program are:

1. **Must be the age of 18 or over.**
2. **Must be a high school graduate or have G.E.D.**
3. **Must be physically fit to perform the work of the trade.**
4. **Must have military discharge under other than dishonorable conditions, if applicable.**

Applications will be accepted five days per week, except holidays, 52 weeks per year between the hours of 9:00 - 11:30 a.m. and 1:30 - 3:00 p.m. at the contractor/employers address. All completed applications will be held on file until there is a need to interview applicants for expected opportunities.

Applications must be completed 45 days prior to interview date. All applicants must provide a copy of their birth certificate, high school diploma or G.E.D. certificate and Military Discharge (Form DD-214) if applicable.

The recruitment, selection, employment, and training of apprentices during their apprenticeship shall be without discrimination because of race, color, religion, national origin, or sex. The sponsor will take affirmative action to provide equal opportunity in apprenticeship and will operate the apprenticeship program as required under title 29 of the Code of Federal Regulation part 30.

The JATC and Local 669 signatory contractors are Equal Employment Opportunity Employers.

Please visit the training website www.training669.org for further information.

Danville Area Community College
