## Local 669 Sprinkler Fitters Apprenticeship Opportunities

TO: State of Illinois Outreach Organizations  
DATE: August 2019

The Local 669 Joint Apprenticeship and Training Committee (JATC) conducts a five year apprenticeship program in all or part of 48 states in the U.S. for Sprinkler Fitters who are piping mechanics specializing in Fire Protection. We are very interested in your help to recruit qualified applicants. We also have excellent insurance, pension and education plans. The apprentice's entry-level rate is based on a percentage of the Journeyman rate of \$44.26 per hour and may increase every six months if qualified. Previous experience in construction or related college or military experience may enhance the entry-level wage.

The minimum qualifications for entry into the Program are:

- 1. Must be the age of 18 or over.**
- 2. Must be a high school graduate or have G.E.D.**
- 3. Must be physically fit to perform the work of the trade.**
- 4. Must have military discharge under other than dishonorable conditions, if applicable.**

Applications will be accepted five days per week, except holidays, 52 weeks per year between the hours of 9:00 - 11:30 a.m. and 1:30 - 3:00 p.m. at the contractor/employers address. All completed applications will be held on file until there is a need to interview applicants for expected opportunities.

Applications must be completed 45 days prior to interview date. All applicants must provide a copy of their birth certificate, high school diploma or G.E.D. certificate and Military Discharge (Form DD-214) if applicable.

The recruitment, selection, employment, and training of apprentices during their apprenticeship shall be without discrimination because of race, color, religion, national origin, or sex. The sponsor will take affirmative action to provide equal opportunity in apprenticeship and will operate the apprenticeship program as required under title 29 of the Code of Federal Regulation part 30.

The JATC and Local 669 signatory contractors are Equal Employment Opportunity Employers.

The purpose of the Operating Engineers apprentice training program is to ensure a continuous supply of skilled craftsmen coming into the trade. Apprentices are carefully selected and provided with training that will ensure they will be equipped with superior skills and the latest technology. Upon completion of their training, they will be an asset to the employer as well as the community, to the end that the public will receive the best possible workmanship.

Some of the classes offered are Forklift, Global Positioning System, Basic Mechanic, Milling Machine, Oiler, Laser/Automatic Controls, Grade Stakes, OSHA, CPR/First Aid, Hazmat, Crane, Backhoe, MSHA, Directional Boring Machine, Graders, Dozers, and others.

The program offers the latest technological and safety training to the Apprentices as well as to the Journeyman Operating Engineers.

Local 841 believes that comprehensive, uniform training for the members will provide a work force that is both productive and safe, and is beneficial to the public, the contractor and the members. The training is based on the premises that the work of the Operating Engineer should be done by qualified Journeymen assisted by indentured Apprentices.

**What Is An Apprentice?**

Apprenticeship is an excellent way to learn a craft and to earn an income at the same time. The system is designed to give someone who knows little or nothing about the trade the knowledge to become a master.
