AMERICAN EQUIPMENT SERVICES JOB DESCRIPTION

Job Title: Welder/Fabricator/Pipefitter

Location: Voorhees

Skills:

- Operate safety equipment and use safe work habits.
- Examine workpieces for defects and measure workpieces with straightedges or templates to ensure conformance with specifications.
- Basic Steel Welding; Aluminum, Stainless Steel; All positions (MIG, TIG & Arc)
- Detect faulty operation of equipment or defective materials and notify supervisors.
- Recognize, set up, and operate hand and power tools common to the welding trade, such as shielded metal arc and gas metal arc welding equipment.
- Select and install torches, torch tips, filler rods, and flux, according to welding chart specifications or types and thicknesses of metals.
- Mark or tag material with proper job number, piece marks, and other identifying marks as required.
- Determine required equipment and welding methods, applying knowledge of metallurgy, geometry, and welding techniques.
- Prepare all material surfaces to be welded, ensuring that there is no loose or thick scale, slag, rust, moisture, grease, or other foreign matter.
- Align and clamp workpieces together, using rules, squares, or hand tools, or position items in fixtures, jigs, or vises.
- Connect and turn regulator valves to activate and adjust gas flow and pressure so that desired flames are obtained.
- Position and secure workpieces, using hoists, cranes, wire, and banding machines or hand tools.
- Monitor the fitting, burning, and welding processes to avoid overheating of parts or warping, shrinking, distortion, or expansion of material.
- Grind, cut, buff, or bend edges of workpieces to be joined to ensure snug fit, using power grinders and hand tools.
- Chip or grind off excess weld, slag, or spatter, using hand scrapers or power chippers, portable grinders, or arc-cutting equipment.
- Repair products by dismantling, straightening, reshaping, and reassembling parts, using cutting torches, straightening presses, and hand tools.
- Clean or degrease parts, using wire brushes, portable grinders, or chemical baths.
- Hammer out bulges or bends in metal workpieces.
- Check grooves, angles, or gap allowances using precision measuring instruments.
- Ignite torches or start power supplies and strike arcs by touching electrodes to metals being welded, completing electrical circuits.
- Guide and direct flames or electrodes on or across workpieces to straighten, bend, melt, or build up metal.
- Preheat workpieces prior to welding or bending, using torches or heating furnaces.
- Analyze engineering drawings, blueprints, specifications, sketches, work orders, and material safety data sheets to plan layout, assembly, and operations.

Experience:

- 3-5 years of welding experience required.

Shop Mechanic Rahn Equipment Company

Our company has been in business since 1998 assembling large snow plow trucks and boom mowers for municipalities. We are currently looking for a self-motivated, detail-oriented mechanic with long term employment goals. A requirement for the position is that you take pride in your work because workmanship does mean something here. The job will involve installing front and rear hitches onto trucks so welding and fabrication skills are necessary. We also install and repair emergency lighting and hydraulic systems on these trucks so familiarity with hydraulic and 12-volt electrical systems would be a plus. We can train the right person. A driver's license with a CDL is preferred but not required. If you have this type of a skill set give us a call or send us a resume. We offer a Competitive Hourly Wage Based on Experience, Employer Paid Individual Health Insurance up to \$500/month and Uniforms, Simple IRA with Match, Earned Paid Vacation, and Sick Leave with Paid Holidays.

Job Description

- Install equipment, hydraulics and electrical components onto new Cab and Chassis
- Keep records of parts being installed onto trucks
- Keep records of correct work time
- Repair damaged or broken components on trucks or snow plows
- Install or repair mowers
- Maintain an acceptable attendance record
- Maintain a clean and safe work environment

Job Requirements

- High School Degree with a Junior College or Tech School Diploma
- 2+ years of repair experience or recent Trade School graduate
- We will consider a student who is close to graduation
- Strong mechanical skills with your own tools
- Basic math skills (Add, Subtract, Multiply and Divide with Ability to work with Fractions)
- Prior knowledge of electrical and hydraulic systems is helpful
- Attention to detail
- A valid driver's license and a clean driving record
- Desire to Learn with the ability to follow instructions

You can send resumes to

HUDSON TECHNOLOGIES

Currently seeking to hire two experienced HVAC Technicians in Illinois.

Qualified candidates should have prior experience working with boilers and chillers and be willing to travel both regionally and nationally as needed.

- The Service Technician II is responsible for independently performing HVAC/R service, refrigerant recovery, equipment maintenance, troubleshooting, and repair with minimal supervision. This role supports complex projects, assists with system retrofits, mentors junior technicians, and delivers excellent customer service while maintaining high safety and quality standards. The ideal candidate has 1–3 years of HVAC/R field experience, strong diagnostic skills, EPA 608 Universal Certification, and the ability to travel frequently to customer job sites.
- We're also looking for a CDL A Hazmat Driver if anyone is interested.
 - Safely transport hazardous materials to designated locations while ensuring compliance with all DOT, federal, state, and company safety regulations. Conduct pre- and post-trip vehicle inspections, maintain accurate delivery and inspection records, and communicate effectively with dispatch and customers to ensure timely deliveries. Operate commercial vehicles with a valid CDL and Hazmat endorsement, follow proper PPE and safety protocols, and respond appropriately to emergencies or incidents involving hazardous materials. Experience with electronic logging devices (ELDs), hazardous materials handling, and strong problem-solving skills are preferred.

Operations and Maintenance Technician 1

Summary of position:

The Operations and Maintenance Technician Level 1 supports the safe, efficient, and reliable operation of solar photovoltaic (PV) systems. This entry-level role is responsible for assisting with preventive maintenance, system inspections, basic troubleshooting, and repair tasks at solar power plants, both rooftop and ground-mounted. The technician works under the supervision of senior O&M staff and plays a key role in maximizing energy output and system uptime.

Essential Duties and Responsibilities:

- Assist in conducting routine inspections and maintenance of PV systems, inverters, combiner boxes, and other electrical components.
- Perform basic troubleshooting of PV systems and support root cause analysis under guidance.
- Clean and maintain PV panels and balance-of-system equipment as required.
- Assist in monitoring system performance using SCADA, DAS, or monitoring software.
- Support the replacement of fuses, breakers, wiring, or other components per standard procedures.
- Document all work performed, complete inspection reports, and input data into CMMS (Computerized Maintenance Management System).
- Follow safety protocols and wear appropriate PPE (e.g., arc-flash gear, fall protection) at all times.
- Help maintain tools, equipment, and site cleanliness.
- Respond to basic site alerts or alarms under supervision.
- Participate in ongoing safety and technical training programs.

Take your Career to *New Heights*

EDF Renewables North America is a market-leading independent power producer and service provider with over 35 years of experience. We deliver grid-scale power projects in wind, solar, and storage; distribution-scale power projects in solar and storage; and onsite solutions including EV charging. EDF Renewables' North American portfolio consists of 18 GW of developed projects and 14.6 GW under service contracts with technical, operational, and commercial expertise to maximize the performance of generating projects.

AVAILABLE POSITIONS

Paid Internship - Renewable Energy Technician 1 (Wind)

EARL PARK, ID

Pay range:

Full pay range is \$17.50 to \$29.00 per hour. Target pay is \$22.00 per hour. Salary based on factors such as internal equity, candidate work and leadership experience, educational credentials, and, in some cases, candidate work location.

Summary:

Under specific direction from the site manager and supervision of an experienced technician, this position will assist experienced technicians with conducting maintenance, preventative maintenance, and repair of wind turbines and/or photovoltaic power and energy storage systems. Learns and applies EDF Core values: safety, teamwork, respect, passion, transparency, good sense, and accountability.

This is a 12-week internship, with the potential to convert to a permanent employee thereafter. Employment after completion of the 12-week internship is not guaranteed and is based on approved headcount, workload, and individual performance as assessed by site leadership.

Renewable Energy Technician (Wind)

CABERY, IL

Salary range:

Full pay range is \$22.16 to \$46.82 per hour. Target range is \$27.00 to \$41.00 per hour. Salary based on factors such as internal equity, candidate work and leadership experience, educational credentials, and, in some cases, candidate work location.

Summary:

Under the direction of the site manager, this position is responsible for conducting preventative maintenance of wind turbines and/or photovoltaic power energy storage systems; and, under the supervision of an experienced technician, conducts troubleshooting and repairs.

This position is expected to work safely under all circumstances and to seek guidance for any work for which they are unfamiliar or do not feel competent to perform safely.

BENEFITS & PERKS FOR FULL-TIME EMPLOYEES

EDF Renewables offers best-in-class employee benefits, including the following:

- **Competitive bonus incentives.**
- **Comprehensive health coverage for employees and eligible dependents.**
- **401k with generous matching contribution.**

904 Brenkman Drive, Pekin, Illinois 61554

NOTICE APPRENTICESHIPS (CARPENTERS, MILLWRIGHT, FLOORCOVERING)

Mid-Central Illinois Regional Council of Carpenters Joint Apprenticeship and Training Committee will be taking applications for apprenticeship throughout the entire year. Applications are available at 904 Brenkman Drive, Pekin, IL Monday through Friday 9:00 a.m. to 11:30 a.m. and 12:30 p.m. to 3:00 p.m. (except holidays).

Basic requirements are:

1. Must be 17 years old (birth certificate required).
2. High School graduate or equivalent (official transcript required).
3. Must be physically able to perform the work of the trade.
4. Must live in Mid-Central Illinois Regional Council of Carpenter's jurisdiction.
5. Drug testing is required upon entry.
6. Must possess a valid driver's license (copy required).

The Joint Apprenticeship Committee will operate the program as required under Title 29 of the Code of Federal Regulations, Part 30. Women and minorities are strongly encouraged to apply. We are an equal opportunity employer.

Local 669 Sprinkler Fitters Apprenticeship Opportunities

TO: State of Illinois Outreach Organizations
DATE: August 2019

The Local 669 Joint Apprenticeship and Training Committee (JATC) conducts a five year apprenticeship program in all or part of 48 states in the U.S. for Sprinkler Fitters who are piping mechanics specializing in Fire Protection. We are very interested in your help to recruit qualified applicants. We also have excellent insurance, pension and education plans. The apprentice's entry-level rate is based on a percentage of the Journeyman rate of \$44.26 per hour and may increase every six months if qualified. Previous experience in construction or related college or military experience may enhance the entry-level wage.

The minimum qualifications for entry into the Program are:

1. **Must be the age of 18 or over.**
2. **Must be a high school graduate or have G.E.D.**
3. **Must be physically fit to perform the work of the trade.**
4. **Must have military discharge under other than dishonorable conditions, if applicable.**

Applications will be accepted five days per week, except holidays, 52 weeks per year between the hours of 9:00 - 11:30 a.m. and 1:30 - 3:00 p.m. at the contractor/employers address. All completed applications will be held on file until there is a need to interview applicants for expected opportunities.

Applications must be completed 45 days prior to interview date. All applicants must provide a copy of their birth certificate, high school diploma or G.E.D. certificate and Military Discharge (Form DD-214) if applicable.

The recruitment, selection, employment, and training of apprentices during their apprenticeship shall be without discrimination because of race, color, religion, national origin, or sex. The sponsor will take affirmative action to provide equal opportunity in apprenticeship and will operate the apprenticeship program as required under title 29 of the Code of Federal Regulation part 30.

The JATC and Local 669 signatory contractors are Equal Employment Opportunity Employers.

Please visit the training website www.training669.org for further information.

ARCONIC

Innovation, engineered.

Arconic Corporation (NYSE: ARNC), a Fortune 500 company, is a leading provider of aluminum sheet, plate and extrusions, as well as innovative architectural products, that advance the automotive, aerospace, commercial transportation, industrial and building and construction markets. Building on more than a century of innovation, Arconic helps to transform the way we fly, drive, and build. We are proud that 77% of our employees are happy working for Arconic and would recommend it as a great place to work and that 80% of our employees would recommend their managers to others.

We offer a range of highly-differentiated aluminum sheet, plate and extruded products for a variety of markets. We're also a key supplier to the building and construction market, with innovative products and systems that help architects, builders and project teams realize their vision for modern, beautiful, high-performing buildings.

We live our core values and commit to delivering sustainable value to our customers, our employees, our communities and our shareholders.

We are currently hiring in the Danville area for:

- Maintenance Associate
- Production Associates
- Environmental Health & Safety Coordinator

Our founder, Paul Greene, laid a foundation of providing solutions for our customers with service, quality, and value. This foundation is at the core of everything we do at Greene Galvanized Stairs. Our facilities have grown from a small blacksmith shop to over 100,000 square feet of manufacturing space. Our products have evolved to concentrate on safe and easy access for grain storage systems, with options for operations of all sizes, from small family farms to large commercial elevators.

We work to continually improve safe access for commodity storage and handling by providing high quality products with exceptional customer service. We pride ourselves on listening to farmers and looking for ways to solve problems they encounter in their day-to-day work. If Greene Galvanized Stairs sounds like a fit for you, please see our open positions below. We look forward to hearing from you!

Who We're Currently Looking For:

-General Laborer

-Laser Operator

Bryant Industries

"Illinois' Most Trusted Name Since 1961"

At Bryant Industries in Danville, IL, great service is our keystone for a reason. Bryant Industries is always willing to listen to a customer's problems and come up with a solution. That's why here at Bryant Industries, we like to think of ourselves as a solutions company.

While we offer many products and services that are already designed and waiting, much of what we do doesn't come from one of those packages but from providing great customer service.

When asked recently for guidance from a farmer whose farm had been leveled by a tornado, not only did we come up with a way for him to recycle his metals, but we helped him formulate a cleanup plan for his entire farm. This is what we do for our customers every day: listen to their problems and come up with a complete solution.

We provide scrap metal cleanup and recycling, vehicle salvage and pick-up, and roll-off dumpster rental services to Central Illinois and Eastern Indiana. From handling industrial scrap to creating Waste Stream Management Plans for companies, no job is too big or too small.

With years of experience in the industry, we take pride in delivering exceptional customer service to all of our clients. Interested in joining the Bryant Industries team? Come see how you can be a part of what we do!

How To Apply:

Visit the link below to print out an application and then return to our office.
